

WHAT WOULD EXTENDING BLADE LIFE MEAN FOR YOUR PLANT?

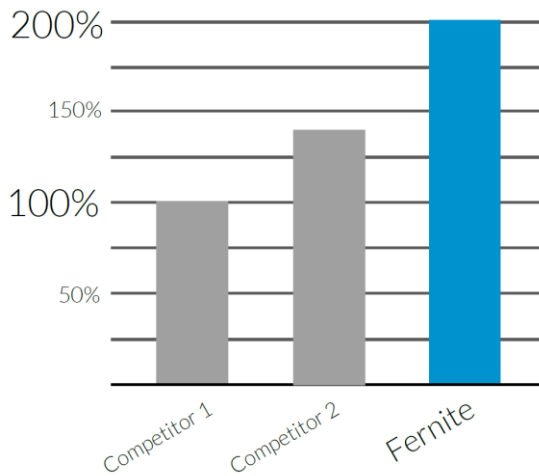

UK Manufactured Gypsum Knives

Fernite blades are manufactured in our ISO9001 certified factory and offer unparalleled longevity and cutting performance

Proven Performance

Fernite blades have been proven to last twice as long as our competitors' standard blades in operating conditions

Benefits to You

- Increased life cycle - fewer blade changes, less production time lost due to maintenance
- Reduce a critical bottleneck in your manufacturing operation
- Cleaner, more precise cut due to precision ground, exact tooth profiles
- Longer production runs and greater output , resulting in more sales and increased profits
- Reduced scrap due to product damage
- Significant long-term savings for your business

**PRECISION
MANUFACTURING**

Optimise your processes with the highest quality blades on the market

**CUSTOMER
FOCUSED**

We're friendly, knowledgeable and easy to deal with

**SECURED
SUPPLY CHAIN**

Buy with confidence and from stock from a reliable ISO9001 certified partner

FERNITE
ENGINEERED FOR YOU

Gypsum Board Cutting Knives

UK Manufactured

www.gypsumblade.com

AN EFFECTIVE AND SIMPLE TASK - SELECT WITH CORRECT KNIFE FOR THE APPLICATION

NON STICK

Our standard non-stick coating to reduce material pick-up on the blade

SUPERIOR

Additional non-stick protection and high wear resistance for longer lifespan

PREMIUM

Our most advanced coating offering the highest level of wear resistance

Benefits to You

- Variety of board thicknesses cut with the same knife
- Fewer knife changes resulting in less downtime and reduction in maintenance costs
- Longer production runs and greater output, resulting in more sales and increased profits
- Short lead-times with delivery from stock

Additives and board linings result in increased wear and build-up of material on the knife. The Fernite range of coated knives have been developed and proven to significantly reduce these issues

Before Using Fernite Knives

What our customers say after using Fernite Knives

"We saved USD 4500 in the first 12 month in maintenance"

"Our knives are not changed every 14 days not 5 as before"

"Fernite are great to work with, and supply our knives from stock"

SELECTING THE CORRECT PROFILE IS CRITICAL FOR INCREASED LIFE AND PRODUCTION OUTPUT
